find the Brochure/Application page in the drop down menu

# Old News

- **Dragway report:** Still in great shape but pay attention to their event schedule to be sure you aren't there on an event day, schedule found on their website or from the link on our website!
- **Petersons report:** This weekend the grass drags occurred so the field was closed to flying from the 9th to 11th. I hope everyone got the news from Wayne in time and nobody showed up disappointed!
- **Indoor flying** No new news, plans are to restart it in the late fall! Will be updating members when we hear more.

## New News!

### **We have a date set for our annual Frozen Finger fun fly.**

As usual it will be on January 1st, 2026 at the New England Dragway field. Last year's was more fun than I've had in a long time and will hopefully be bigger and better than last year's! Someone has to dethrone Wayne W. as the limbo champion. Start practicing now!

### **Our Fun Fly recap got posted to the AMA foundation Blog!**

See the post here : [AMA Foundation Blog](#)

I hope everyone knows how much events like this do for the club. It was an amazing turnout and the new people who attended are still calling me and setting up dates to come fly again. I know some of you have been there to help when I send them to the field unannounced and THANK YOU so much for being open and truly great members in helping, I've gotten many good responses from some who have been there and this is what will keep our club alive and well for generations to come!

### **Quote from Jason S. who recently stopped by for the first time with his son and a brand new plane:**

"We stopped by. Very welcoming and helpful group of guys. We look forward to stopping by again soon! Charlie got the plane tuned up and flying. We look forward to connecting the buddy box next time so I can take it for a spin!"

# What is the Outreach Team Doing?

## **PEASE- Thunder Over New Hampshire Airshow**

Huge success, Still working on a write up of it but will be a video and full recap coming soon! Thank yo to everyone who came and supported us and please tell others what a great time it was because next time we will be going even bigger!

## **September 28th was Concord Wings& Wheels**

where the Outreach Team flew and broke out all the stops as they do for this event every year.

Again a more comprehensive write up to come once I am fully informed on who, what, and how it all came out. Great show and love having a slot in this one each year!

TV clip at this link: [Concord Wings & Wheels recap on WMUR TV!!](#)

## **October 4th Hampton Aviation Day**

Yet Another great show for the Outreach Team and all of the people from Flight4CF. Recap will be done once more info comes in here as well!!

## **November volunteer work**

We also have an opportunity to visit a school in November and conduct a one hour class with some kids, building some simple foam gliders in that hour time frame. More details about this available through Doug Thompson. Hoping for a few volunteers to be some extra hands and to help build and a chance to work with some great students!

## **Next Club Meeting**

**October 20th**

**6:30PM-8:30PM**

**151 Main St Epping, NH**
